Semantic Features Analysis Chart

The Semantic Features Analysis chart is used to examine similarities and differences between a group of items, people, events, etc. Students place check marks in boxes to show that an item possesses a characteristic, and an "X" if the item does not posses a characteristic.

	Soccer	Baseball	Swimming
Uses a ball	3	3	X
Is played in the water	Х	Х	3
Players have to run	3	3	Х
Can be played as an individual sport	Х	Х	3
