How to Use Ipractice Effectively

A guide to help you understand:

- Istation Instructional Design
- Home Connection: Ipractice
- Istation Parent Portal Resources
- Tips for Parents

Welcome to the Red Cape Nation

From digital lessons and interactive books to engaging songs and games, Ipractice offers an exciting world of virtual lessons for reading, math, and Spanish. Home access to each program is based on the subscription(s) purchased by your school, district, or state. Students use the same login credentials from school to access Ipractice at home.

For information on how to set up Istation's Ipractice at home, go to the [Istation Home Handbook](#).

In addition to Ipractice, parents can access Parent Portal resources to support learning at home. These resources provide simple and practical lessons that you can use with your child. This guide also includes tips and sample schedules to help you and your child be successful at home.

For additional tips and ideas on how to teach different skills, visit our webpage for simple and practical tutorials. You can also view some sample webinars provided by our customer success team at the links below:

Tips for Parents

The following are proven practices that can benefit your family and tips to help you get started:

1. Create ground rules with your child.
2. Set up a schedule to create a daily routine.
3. Allow breaks between scheduled learning times.
4. Keep a balanced set of rules for using devices and technology (limit screen time):
 - Pause for people: When someone wants to talk to us, we stop, look up from our screens, and talk to each other.
 - Inside or outside activity: I do physical activity every day.
 - Device-free meals: I eat without having a phone or tablet with me.
5. Reward progress and hard work.
